

GLP

Good laboratory practice (GLP) is a quality system concerned with the organisational process and the conditions under which *non-clinical health and environmental safety studies* - which are a set of experiments in which a test item is examined under laboratory conditions or in the environment to obtain data on its properties and/or its safety, intended for submission to appropriate regulatory authorities - are planned, performed, monitored, recorded, archived and reported.

Legal Notice 371 of 2004 (The Good Laboratory Practice Regulations, 2007) transposes the GLP directives:
